

COLLEGE OF TROPICAL AGRICULTURE
AND HUMAN RESOURCES
UNIVERSITY OF HAWAII AT MĀNOA

ANSC

Animal Sciences

Animal Sciences (ANSC) is the application of experimental investigation, cutting-edge technology, and other scientific principles to advance efficient and environmentally friendly agricultural systems and improve food quality and safety.

If you want to pursue sustainable livestock or aquaculture systems, care for the health and well-being of animals, or responsibly manage wildlife, then a BS in ANSC is for you.

Animal Sciences (B.S.)

Train in both basic and applied agricultural systems, with an emphasis on production in the tropics. Learn about proper care/welfare and management of pets and companion animals (including horses), farm livestock, marine mammals, exotic wildlife, and/ or zoo animals. Learn about animal nutrition, genetics, and breeding. Prepare for veterinary, medical, or pharmacy school or graduate study in the sciences.

Pre-Vet Track Option:

Prepare for veterinary school. Work with CTAHR's pre-veterinary advisor to ensure that you are ready to apply.

Career Opportunities:

- Veterinarian
- Veterinary assistant
- Livestock farmer
- Livestock Inspector
- Rancher
- Physician
- Zookeeper
- Wildlife Conservationist
- Animal Scientist
- Aquaculturalist
- Food Safety Officer
