

'ŌHI'A FOR OUR FUTURE

The race to a healthy ōhia forest

TRAIL HEAD

RAPID 'ŌHI'A DEATH (ROD)
 ROD is caused by a fungus that has killed a great number of 'ōhi'a trees across Hawai'i Island. The most important thing we can do is help prevent ROD from spreading.

DECONTAMINATION STATION
REDUCE THE SPREAD OF ROD
 Clean your boots, tools, and gear!
SPRAY WITH 70% RUBBING ALCOHOL
