

Form and Instructions for Study Packets Order or Pesticide Short Course Registration

To order a study packet:

1. Know which *category* of restricted use pesticide examination you should study for. Read the note on this page under Categories of certification examinations.
2. Learn which study packet or packets to order. Read the note on page 2 Which study packets to order?
3. Fill in the box on page 3: Form for ordering STUDY PACKETS for Examinations for restricted use pesticide certification.
4. Then add the sub-total to your TOTAL on page 4 and fill in the appropriate boxes.
5. Send us your payment with your completed form. Read the note on page 2 under Sending your payment and form.

You may download all of the individual study guides in the study packets free-of-charge from this webpage:

<https://cms.ctahr.hawaii.edu/epp/Education/Study-Guide-Packets>

To register for a short course:

1. Know the location and dates of the short course you want to register for. Read the note on this page under Short course dates, locations, and deadlines.
2. Fill in the box on page 4 titled “Form for REGISTRATION for a Pesticide Risk Reduction Education short course.”
4. Then add the sub-total to your TOTAL on page 4 and fill in the appropriate boxes.
5. Send us your payment with your completed form. Read the note on page 2 under Sending your payment and form.

To get help using the forms, contact the instructor in Honolulu: ph. (808) 956-6007 or email cynagami@hawaii.edu.

Categories of certification examinations—Before you mark your order for a study packet on page 3, find out which category of restricted use pesticide certification exam matches the kind of work you do with pesticides. *Do not guess!* You could waste your time and money if you study for an exam that does not match. Ask about the categories of certification examinations by calling one of these telephone numbers for the Hawaii Department of Agriculture’s Pesticides Branch:

Kauai applicators—Call Honolulu direct 973-9409 or 973-9424, or toll free 274-3141 x 39409 or 39424 followed by “#”.

Oahu applicators—Call Honolulu direct 973-9424 or 973-9409.

Lanai, Molokai, and Maui applicators—Call Honolulu direct 808-973-9424 or 973-9409, or toll-free 984-2400 x 39424 or 39409 followed by “#”.

Hawaii island applicators—Call Honolulu direct 808-973-9424 or 973-9409.

Short course dates, locations, and deadlines—See the instructor’s schedule of announced short courses at this webpage: <https://cms.ctahr.hawaii.edu/epp/Education/Short-Course-Schedule>

Or ask the instructor to send you an announcement for the next short course on any one or all of these islands: Kauai, Oahu, Maui, Molokai, or Hawaii. Contact the instructor by phone 808-956-6007 or email cynagami@hawaii.edu. Specify island or islands. You may leave a message if you call.

You may register for a short course even if you don’t order a study packet. But the short course does not cover all of the topics in the Hawaii Department of Agriculture’s examination for restricted use pesticide certification. So if you want to prepare for the examination, you should also study the study guides in the study packets. You can get study packets by using the order form on page 4 or by downloading the individual study guides free of charge from this webpage: <https://cms.ctahr.hawaii.edu/epp/Education/Study-Guide-Packets>

Which study packets to order?—First, learn which examination category or categories you want to study for. For help, you can call one of the telephone numbers listed on page 1 under Categories of certification examinations. (*Do not guess!* You could waste your time and money if you study for an exam for a certification category that does not match the kind of work you do with pesticides.) Then, in the list below, find your category or categories and read the recommendations about getting the matching packet or packets of study guides. Use the form on page 3 to order printed versions of study packets.

For the <i>Private 1 General Agricultural</i> pest control exam, get the Basic study packet and the Private 1,2,3 study packet.
