

TECHNICAL NOTE

USDA NATURAL RESOURCES CONSERVATION SERVICE PACIFIC ISLANDS AREA

Plant Materials Technical Note – No. 6

COMMERCIAL SOURCES OF PLANT MATERIALS NATIVE TO THE PACIFIC ISLANDS AREA

PREFACE

Enclosed is a partial list of sources for plants native to the Pacific Islands Area. The list is not complete and does not constitute a guarantee of reliability or quality of product. No endorsement is intended or implied and no discrimination is intended by omission.

The basis for this document is on current listings and will be kept as current as possible. Please notify us if there are known sources of native plants not shown on the attached list.

Sources listed are primarily nurseries that sell plants in containers. Some may be contracted to produce a specified quantity of a certain species. In addition, sources may be contracted to do the actual planting on site.

Some nurseries have excellent Web sites that are informative and helpful. Please access these sites. In addition to useful information, many provide product and price lists. Here are other interesting and useful links:
